

EXPORT PROCEDURES

Non-commercial plants and plant products

Planning to export non-commercial plants and plant products? Here are the guidelines:

1 QUANTITY

- The maximum combined weight of non-commercial shipments is 20 pounds (20lbs)
- Shipments above 20lbs will be deemed commercial export
- Commercial exporters must be registered with the PQ/PI Branch.

2 WHAT CAN BE EXPORTED?

- Plant materials (seeds, leaves, roots)
- Unprocessed plant products
- Regulated articles, e.g., aggregates
- Traditional herbs and roots, e.g., guinea hen weed, sarsaparilla, soursop leaves, fever grass
- Sea moss (Irish moss)

3 EXPORT REQUIREMENTS

- Each item must be dried and free of soil and pests, e.g., insects, fungus, bacteria

- Each item must be labelled, weighed and packaged in clean packages.
- No reused packages are allowed.

4 MAKE AN APPOINTMENT

Call the Plant Quarantine Office that is near to you to make an appointment to have your items inspected.
